

Crystal Catalyst® Products have been manufactured and tested for over seventeen years, and sold world-wide. We do not advertise, and our business is based on word-of-mouth by our satisfied customers.

CRYSTAL CATALYST® BEAD

The bead gives continuous energy enhancement, while protecting one from most harmful radiation accompanying electromagnetic fields. For best results, wear one bead, or one pendant.

GEMSTONE PENDANTS

The pendants are composed of traditional gemstones which have been used to enhance the function of the body's energy sites for the past six thousand years. The Crystal Catalyst Bead in each pendant enhances and multiplies the action of the stone combinations on the personal energy field. Pendants will not store negativity because each is neutralized by a Crystal Catalyst Bead.
